

<b>Project title</b>	A significant instrument for public sanitation services management in rural areas
<b>Location</b>	Criuleni and Ialoveni rayons, Măgdăcești and Costești villages and other associated rural localities(Pojăreni, Hansca, Molești, Găureni, Zîmbreni, Drăsliceni, Ratuș and Logănești )
<b>Applicant</b>	Magdăcești town hall, Criuleni rayon
<b>Partners</b>	<ul style="list-style-type: none"> <li>• Costești townhall</li> <li>• Pojăreni townhall</li> <li>• Hansca townhall</li> <li>• Molești townhall</li> <li>• Zîmbreni townhall</li> </ul>
<b>General objective</b>	Sustainable solution for environmental issues related to wastewater disposal and waste management by implementing a mechanism adjusted to rural needs.
<b>Short project description</b>	<p>Wastewater from municipal sewerage system presents a significant source of pollution for underground waters and surface waters. Most municipalities dispose these wastewaters directly, without processing them into the basins. This is a characteristic feature for the rural population living neaby Chisinau and especially for Măgdăcești and Costesti villages.</p> <p>The project aims at developing local sewerage systems and water purification technologies using advanced biological treatment and capacity building for local operators involved in the management utilities. The project is relevant for environmental policy of Republic of Moldova, important to implement the objectives regarding infrastructure elements modernisation in gthe domain related to wastewater treatment and sewerage system.</p>
<b>Results</b>	<p>Physical infrastructure to dispose and treat wastewater</p> <p>1786 households connected to the sewerage system in Măgdăcești village and 2967 households in the Costesti village</p> <p>Improved living conditions for 15,810 people</p> <p>Sanitary-epidemiological rules corresponding to European standards implemented locally</p> <p>Improved environmental conditions by decreasing the amount of 2500 hours m3/24 hours for disposed wastewater into the groundwater and surface</p> <p>Strengthened capacity of local operators responsible for municipal services</p> <p>Improved investment conditions in two rural communities;</p> <p>15,810 aware and informed citizens</p>
<b>Current status of the project</b>	In search for financial resources
<b>Implementation period</b>	24 months
<b>Costs</b>	46 539 243,00 Lei
