

<b>Project title</b>	IMPROVING POTENTIAL ECONOMIC ACTIVITY IN THE REGIONAL INDUSTRIAL SECTOR BY CONSTRUCTING THE ROAD WITH ACCESS TO REPUBLICAN ROUTES R3 R34
<b>Location</b>	Hîncești town hall
<b>Applicant</b>	Hîncești town hall
<b>Partners</b>	Hîncești rayon council
<b>General objective</b>	Divert heavy traffic passing through the down town, weaken the intensity of movement of transit transport and transport access to industrial and economic zones
<b>Short description of the project</b>	<p>Constructing the road will have a positive impact for Hincesti, because it will represent a series of works that will solve the most pressing problems for Hincesti and neighboring localities.</p> <p>The proposed project justify its importance by improving road access to the Republican Chisinau - Hincesti - Cimislia - Basarabeasca R3 and Chisinau - Leova R34 roads. The object above has a function called special transportation as a way to work around the direction of direction Basarabeasca Cahul, Moldova and most important to Europe via Leuseni customs. In this area are currently located industrial and manufacturing plants. Also it will serves as a protection zone of the river Cogilnic and connection with optimal Hincesti Moldova's road network.</p> <p>The road crosses free economic zone of the town, so it will contribute to the economic development of the city and provide improvement of the town citizens living conditions, transferring national and international traffic outside the urban center.</p> <p>The road is 1442 m long assured with asphalt. Geometrical parameters corresponds to Snip 2.07.01-89 tab.8 with width of 3.5m, the number of lanes - 3, which will ensure good traffic circulation and safety. For the flow of pedestrians will build a 1.5 m wide asphalt pavement.</p>
<b>Results</b>	<p>Over 17,000 inhabitants of the town and over 450 Hîncești operators will have comfortable access to main roads R3 R34</p> <p>It will increase the attractiveness of the local town population and their living standards, improving the ecological situation of the river flood plain Cogilnic</p> <p>It will increase significantly the traffic capacity, reducing road congestion</p>
<b>Current status of the project</b>	In search for financial resources
<b>Implementation period</b>	20 months
<b>Costs</b>	20 737 thousand lei
