

Project title	Improvement and rehabilitation of regional infrastructure in the center region
Location	Chirca and Merenii Noi villages
Applicant	Merenii Noi townhall, Anenii Noi rayon
Partners	Chirca townhall
General objective	Reconstruction and road planning on the road Portita Merenii Noi - Chirca. Creating favorable traffic conditions for the target groups and beneficiaries.
Short description of the project	Near the rayon road Merenii Noi - Chirca there is a portion of road in general deplorable state. This creates discomfort for the people involved in traffic. General shortcomings identified are achieved through no street route planning, the existence of potholes, longitudinal and transversal paths. Factors that accelerate aggravation of technical condition of the road are climatic conditions and human resources. Flooding from heavy machinery, construction materials which transport economic agents in the area has a negative impact on the general condition of the rayon road, but it is also the only way to access highway Chisinau - Odessa.
Results	<p>Increasing access of beneficiaries to the national road Chisinau-Odessa</p> <p>12 km of important rayon road repair, which links to national road Chisinau-Odessa</p> <p>34 traffic signs installed along the route;</p> <p>2730 trees planted on the strip of road protection portion Merenii Noi-Chirca</p>
Current status of the project	In search for financial resources
Implementation period	24 months
Costs	10 947 872 lei
