

<b>Project title</b>	A clean environment by establishing a sustainable system of waste management
<b>Location</b>	Călărași, Tuzara, Seliște and Nișcani villages
<b>Applicant</b>	Călărași townhall
<b>Partners</b>	Călărași Rayon Council, Tuzara city hall, Nișcani, Ungheni townhall
<b>General objective</b>	Improving environment by developing an effective waste management system for Calarasi and Ungheni residents by creating access for 20501 citizens to an European efficient system for separate waste collection, increased public awareness regarding waste management; consolidation of local public authorities capacities and of the municipal enterprise "Gospodaria Comunal Locativa Calarasi" in partnership with Ungheni.
<b>Short project description</b>	<p>Project necessity is dictated by the alarming state of waste management in Calarasi localities, especially in the city of Calarasi, and the neighboring village Tuzara (village Tuzara and Seliste-Noua), but also Nișcani village. Deplorable state of pre-collection platforms, containers (in some places they even do not exist), and even the lack of waste disposal equipment lead to unauthorized dumps which heavily pollute water, air and soil.</p> <p>The project aims at arranging pre collection platforms and introducing a modern system of waste collection.</p>
<b>Results</b>	<ul style="list-style-type: none"> <li>- 30 constructed precollection platforms</li> <li>- 120 installed European containers</li> <li>- 20 100 distributed trash bags</li> <li>- 300 installed metal urns trash</li> <li>- Special sanitation vehicle purchased</li> <li>- An installed baling for recyclable waste compressor</li> <li>- Street cleaning machine purchased</li> </ul>
<b>Current status of the project</b>	In search for financial resources
<b>Implementation period</b>	24 months
<b>Costs</b>	4 326 090 lei
